### Recommended Citation

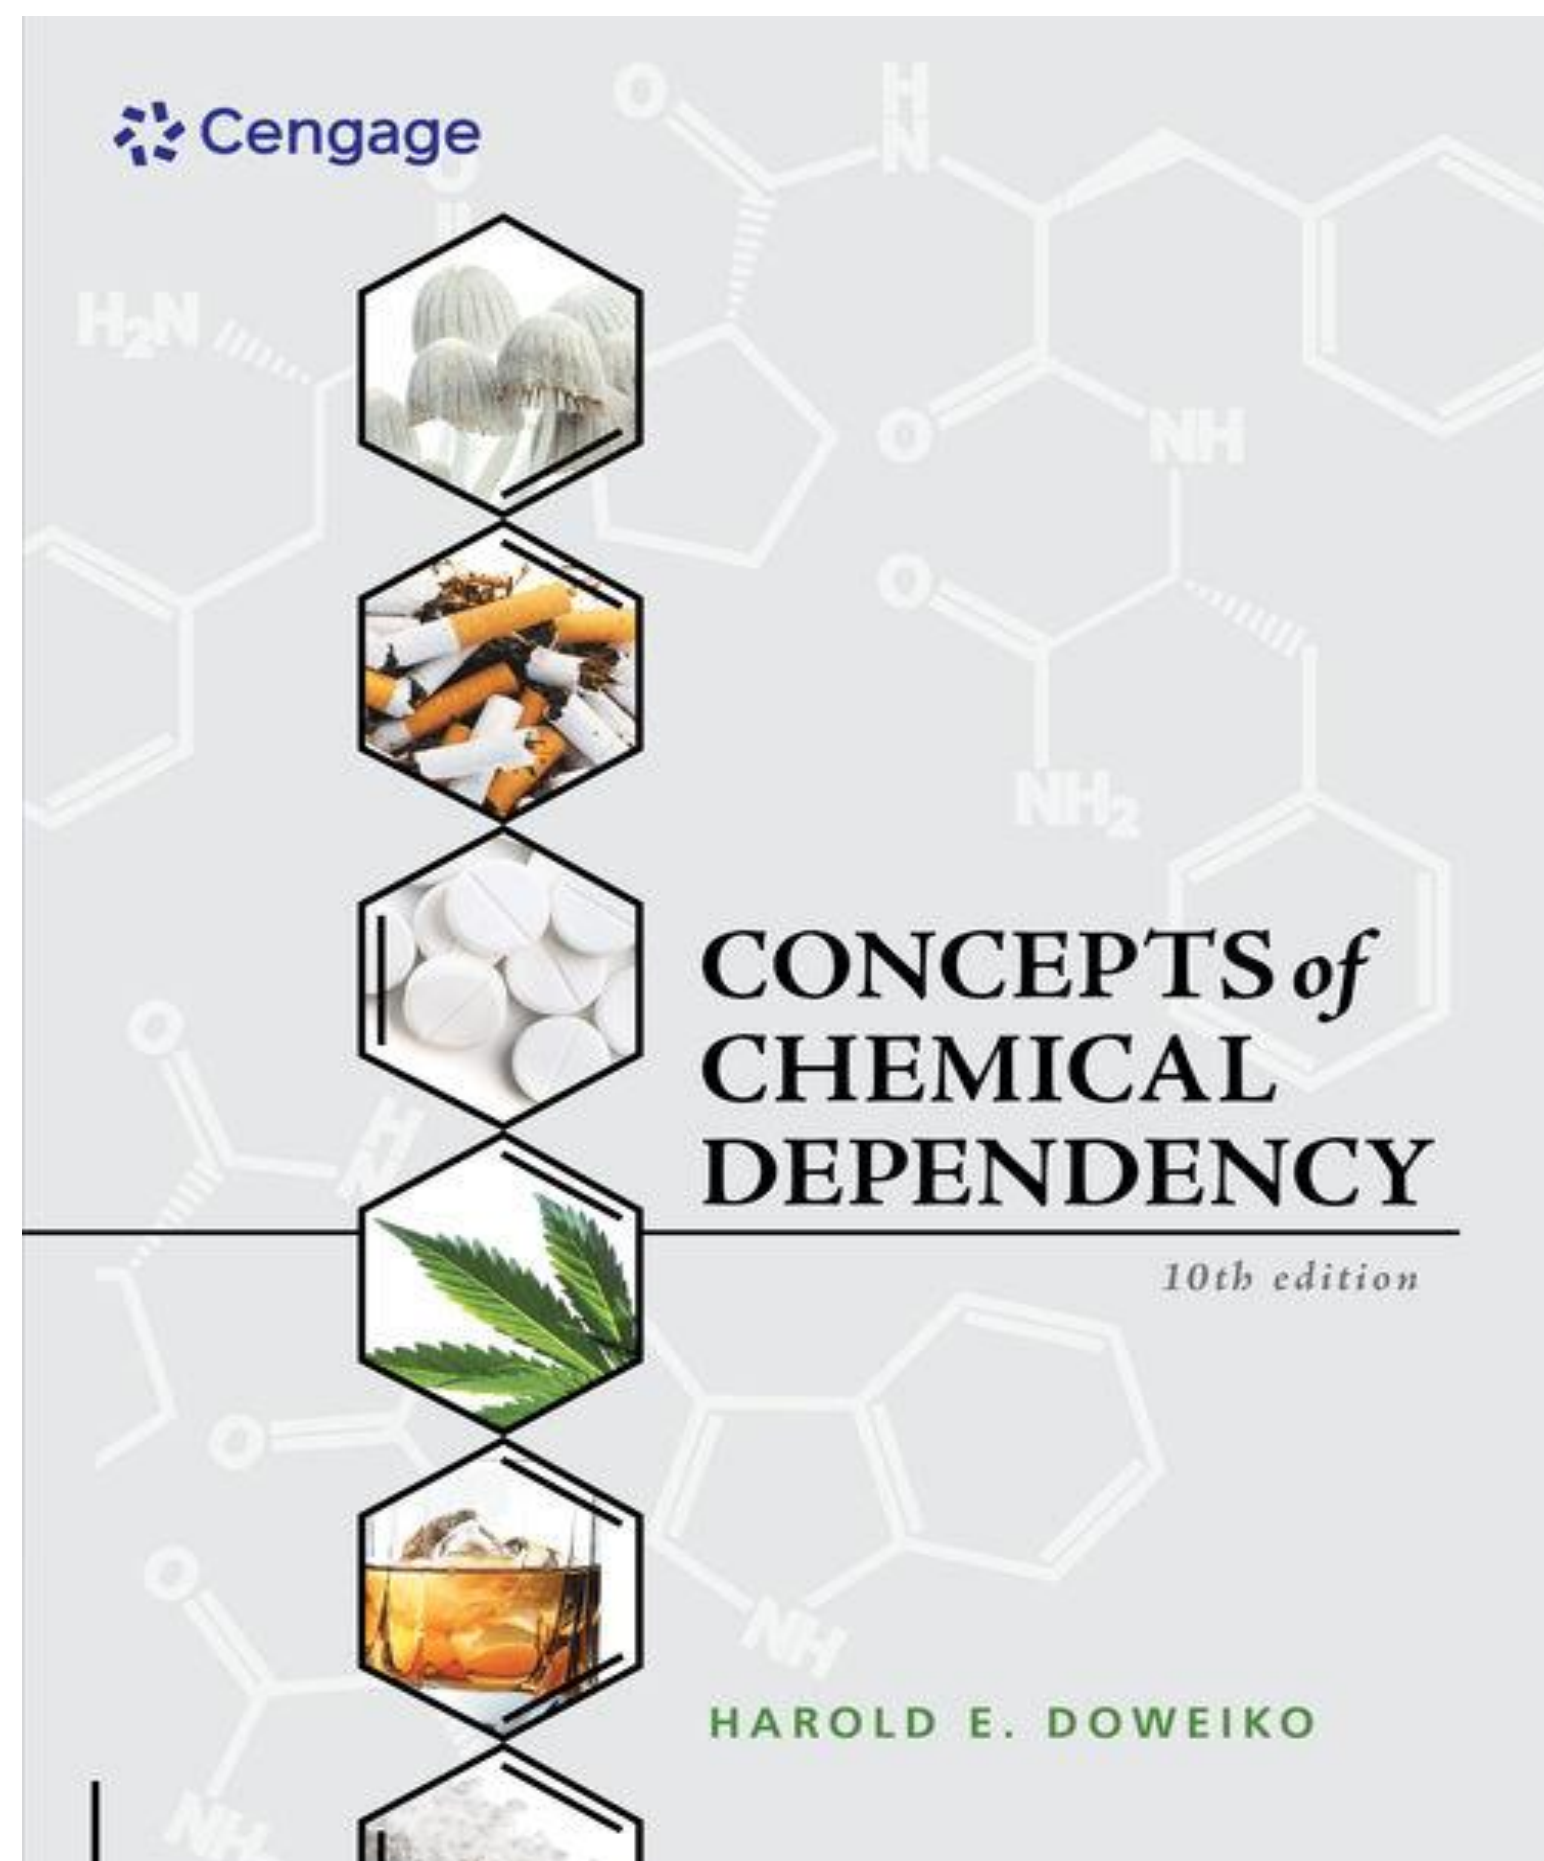

Evans, Amy, "Concepts of Chemical Dependency" (2023). *Day of Scholarship*. 22.  
<https://spark.bethel.edu/dayofscholarship/fall2023/oct25/22>

This Event is brought to you for free and open access by the Provost Office at Spark. It has been accepted for inclusion in Day of Scholarship by an authorized administrator of Spark. For more information, please contact [k-jagus@bethel.edu](mailto:k-jagus@bethel.edu).

## History

- Used the 8<sup>th</sup> Edition (2012) in my teaching of Addictions Courses for Master's Level Counselors at Liberty University
- Used the 9<sup>th</sup> Edition (2015) as I revised the courses for Liberty University
- Fall 2016, was asked to be expert reviewer of the 10<sup>th</sup> Edition after I reached out with concerns regarding the 9<sup>th</sup> edition.
- Revised 10<sup>th</sup> edition in 2017 after Doweiko's illness
- Publication Date 2019. Given the contract language with the author, I was listed as contributor rather than author

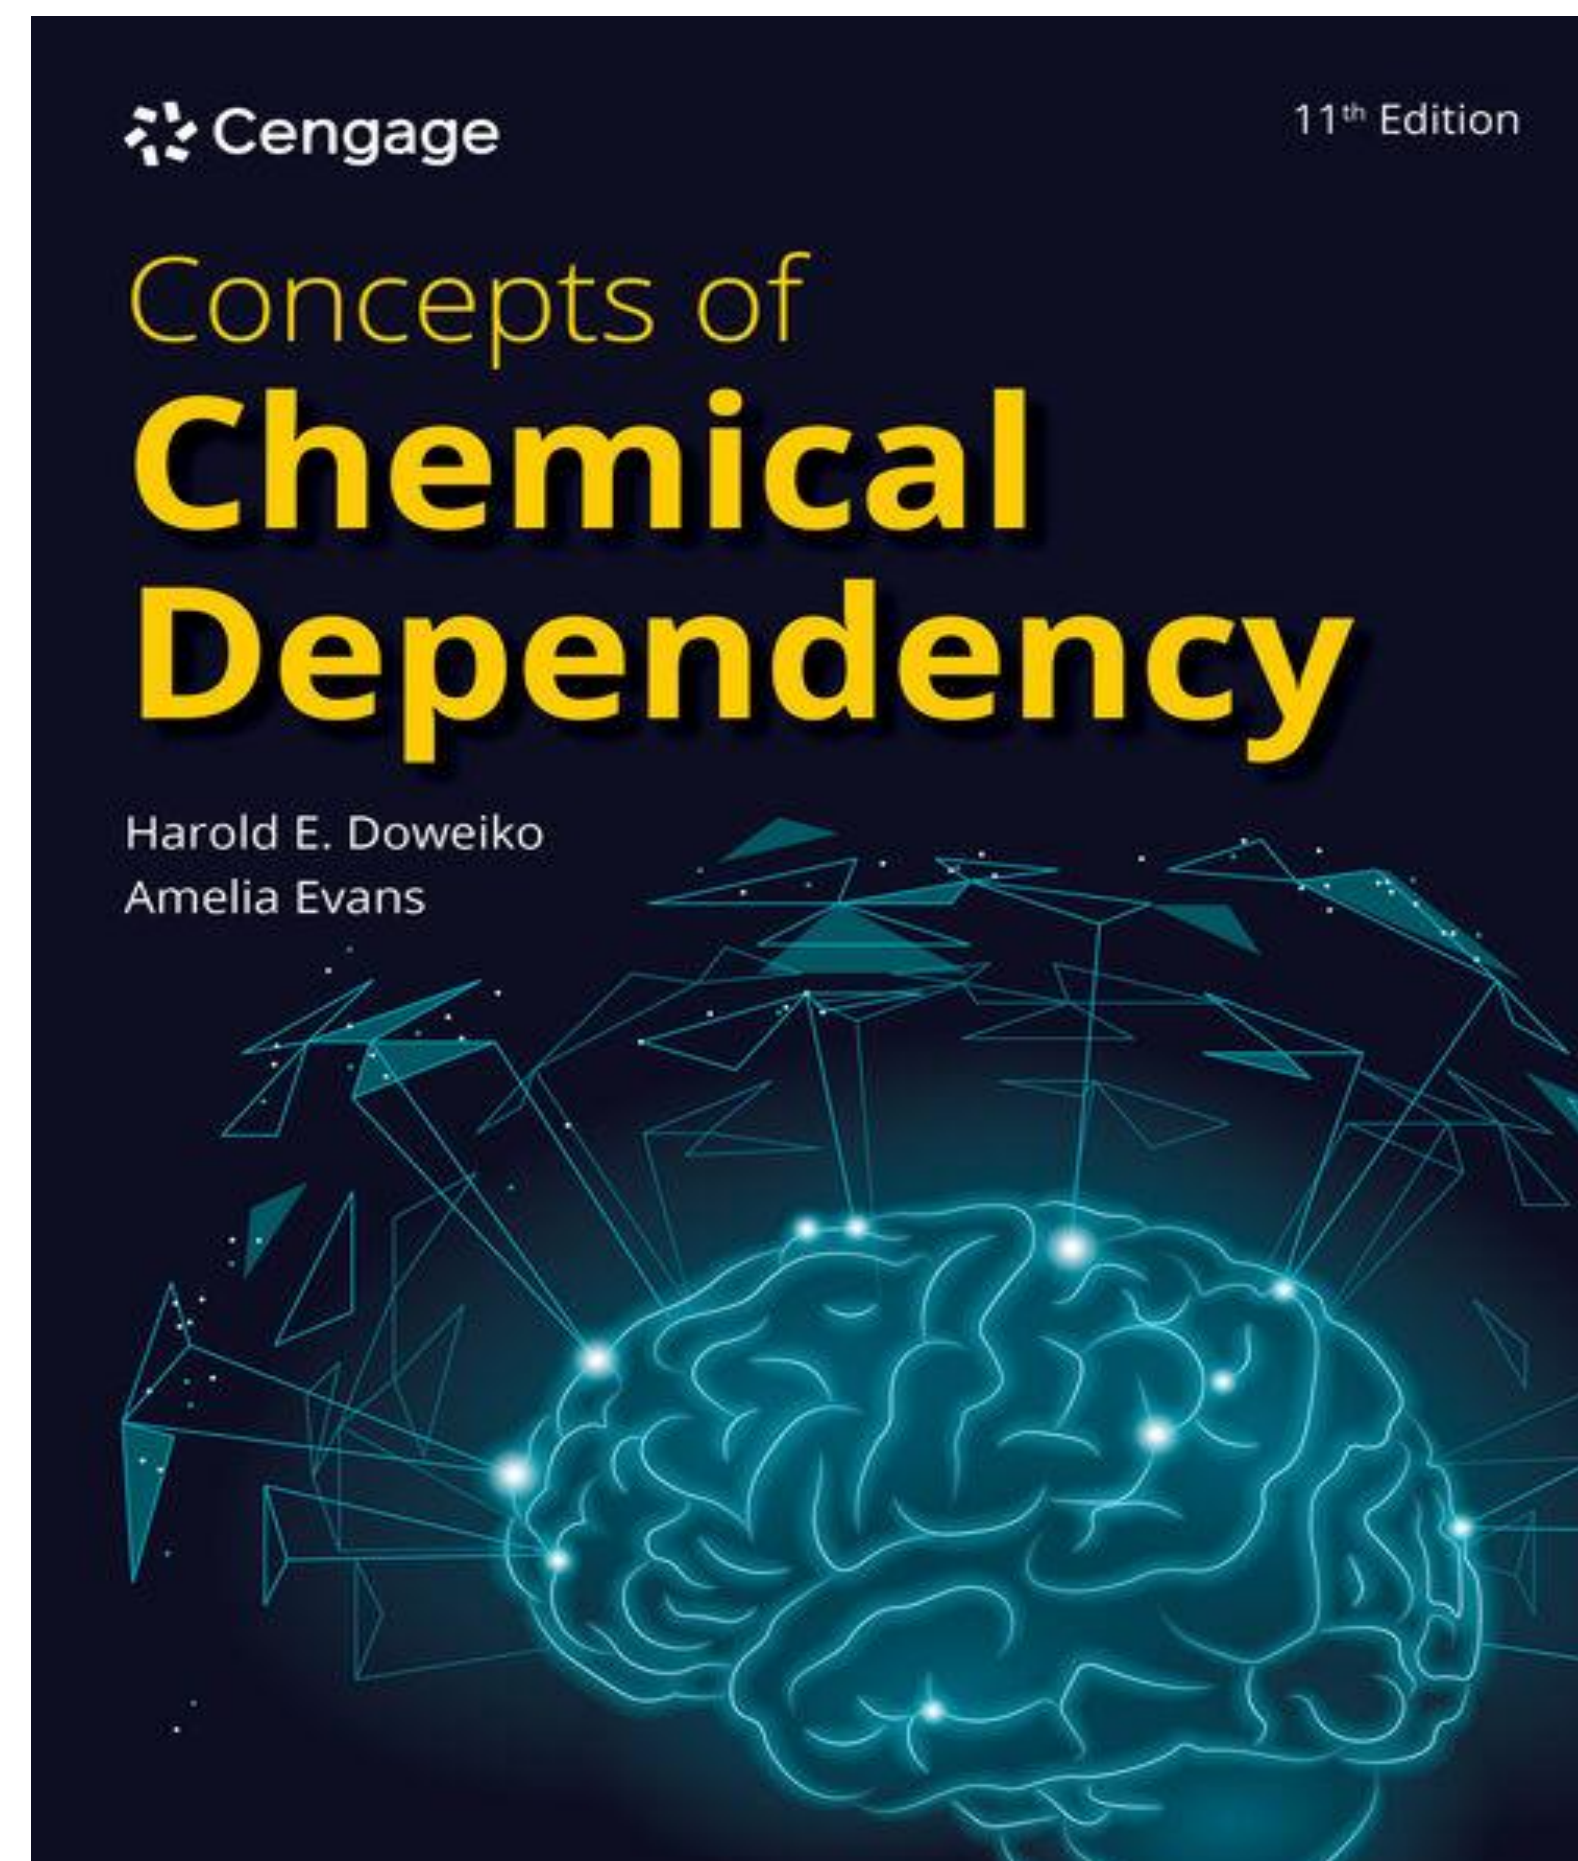

## Most Recent Edition

Revised 11<sup>th</sup> edition Spring 2022

- Publication Date 2024
- Listed as author on cover
- Listed first on title page, along with Bethel University, St. Paul Minnesota
- Doweiko continues to be listed, due to contract language, despite his death in 2018

*"Doweiko/Evans' CONCEPTS OF CHEMICAL DEPENDENCY, 11th EDITION, provides comprehensive coverage and the latest information on a spectrum of substance use disorders and the compounds commonly abused. It is written in a style that allows students to think through and apply the concepts. Among other updates, the 11th EDITION includes new information on synthetic drugs and a new chapter on substance use and misuse in older adults" (Cengage)*

## Chapters

1. Why Worry About Substance Use Disorders (SUDS)?
2. The Nature of the Beast
3. A Brief introduction to the Science of Pharmacology
4. An Introduction to Alcohol: Man's Oldest Recreational Chemical
5. The Alcohol Use Disorders
6. Misuse of Barbiturates and Barbiturate-Like Compounds
7. Use and Misuse of the Benzodiazepines and Similar Agents
8. Use and Misuse of Central Nervous System Stimulants
9. Cocaine Misuse and Cocaine Use Disorder
10. Cannabis Use, Misuse, and Cannabis Use Disorder
11. Opioid Use, Misuse, and Opioid Use Disorder
12. Hallucinogen Misuse
13. Misuse of Inhalants and Aerosols
14. The Under-Recognized Problem of Steroid Misuse
15. Tobacco Products and Tobacco Use
16. Over-the-Counter Analgesics
17. Chemicals and the Neonate
18. Gender and Substance Use Disorders
19. Hidden Faces of Substance Use Disorders
20. Substance Misuse by Children and Adolescents
21. Substance use and Substance Use Disorders in College Students
22. Substance Use Disorders and the Older Adult
23. Substance Use Disorders and the Family
24. Codependency and Enabling
25. The Client with Co-Occurring Disorders
26. The Biopsychosocial Model of the Addictions
27. The Substance Use Disorders and Spirituality/Religion
28. The Screening and Assessment of Suspected Substance Use Disorders
29. Intervention
30. Treatment Settings
31. The Treatment of Substance Use Disorders
32. The Process of Treatment
33. Pharmacological Interventions for Substance Use Disorders
34. Return to Use and Other Problems Frequently Encountered in Substance Treatment
35. Support Groups to Promote and Sustain Recovery
36. Substance Use Disorders and Infectious Disease
37. The Debate over Drugs
38. The Debate over Legalization

## Important Updates

- Use of Person-First Language throughout the text, to reduce stigma related to substance use disorders. For example:  
"the individual struggling with a heroin use disorder"  
versus  
"heroin addict"
- International rather than solely United States focus
- Updates with new substances and legalization issues

## Benefits for Bethel

- Marketing: Use of Bethel name on the inside cover
- Used broadly across the United States in undergraduate and graduate courses
- Donated newest edition to the Bethel Library
- Requested 30 copies for use with our MA in Counseling students, free of charge
